

Westgate Dental Clinic

Dr Joe Flight
BDS King's College London

GDC 289525

After completing a BSc in Biochemistry, Joe achieved his BDS in Dentistry from Kings' College London. He has previously worked in a community dental clinic treating patients with additional needs and severe anxiety. He also has experience treating patients in hospital under general anaesthetic. He's spent the last two years working in general dentistry including smile makeovers and Invisalign. He is currently busy with his post graduate certificate in Restorative Dentistry.

Joe really enjoys the everyday challenges the profession brings and has an interest in conservative techniques and minimally invasive dentistry. He is especially proud of putting anxious patients at ease and truly believes in the provision of dentistry in a relaxed, friendly environment, so he should fit right in at Westgate!

Outside of the clinic, Joe enjoys a variety of sports including rollerblading, Brazilian jiu-jitsu and cycling.
